Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1936-37.

(*Note.*—On an average of the five years ending 1934-35, the area under linseed in Bengal has represented some 3·6 per cent. and that under rape and mustard 11·6 per cent. of the total area under these crops in British India.)

Character of the season.—As reported in the second forecast the weather was generally favourable for sowings and for the early period of growth. Subsequent conditions were more or less helpful except in parts of Presidency Division where heavy rainfall affected the crops. Injury to crops by insect-pests is reported from some districts. On the whole, the season was satisfactory for the crops this year.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is not extensive. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 916,700 acres as against 850,400 acres last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 85 per cent. as against 76 per cent. last year.

Taking 7⅞ths maunds as the normal yield per acre for linseed, 7⅞ths maunds for rape and mustard and 4¼ maunds for other oilseeds, the total yield of the crops for the province is estimated at 211,500 tons this year as against 176,700 tons last year.

Director of Agriculture, Bengal.

DEPARTMENT OF PUBLIC HEALTH AND LOCAL SELF-GOVERNMENT.

Public Health.

NOTIFICATIONS.

Pabna.—No. 1748P.H.—8th May 1937.—Whereas the Governor of Bengal is satisfied that the district of Pabna is threatened with an outbreak of cholera:

Now, therefore, in exercise of the power conferred by section 2A, read with sub-section (*1*) of section 2 of the Epidemic Diseases Act, 1897 (Act III of 1897), the Governor of Bengal is pleased to prescribe the following temporary regulations for the prevention and control of cholera, and for the medical inspection, isolation, observation and surveillance of persons suffering from, or suspected of being infected with, cholera in the said district for a period of two months:—

Temporary regulations for the prevention and control of cholera.

1. In these regulations, unless there is anything repugnant in the subject or context:—

(*a*) "District Health Officer" means the Health Officer of the district appointed by the District Board under sub-section (*3*) of section 91 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885);

(*b*) "Sanitary Inspector" means a Sanitary Inspector appointed by the District Board under sub-section (*3*) of section 91 of the Bengal Local Self-Government Act of 1885;

(*c*) "Board" means a District Board constituted under the Bengal Local Self-Government Act of 1885;

(*d*) "Union Board" means a Union Board constituted under the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919);

(*e*) "suspected cholera" means any disease accompanied by vomitting and diarrhœa;

(*f*) "patient" means a person suffering from or suspected to be suffering from cholera;

(*g*) "medical practitioner" means any person practising the medical profession.

2. Whenever any land is held jointly by two or more persons, whether as owners or occupiers of that land, such persons shall be held jointly and severally liable for carrying out any measure ordered in a notice under these regulations, and the names of any one or more of such joint-holders may be entered upon such notice at the discretion of the District Health Officer and the District Health Officer shall not be bound to enter the names of all the joint-holders in the notice.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such steps as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

Costs and compensation.

5. (*1*) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the Board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by that person:

Provided that where the conditions, which led the District Health Officer to pass such an order, are not attributable to any act or default of the persons in possession of the property, the Board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The Board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations, if he has failed to carry out an order issued under these regulations within the time specified in the order and to the satisfaction of the District Health Officer.

Location of disease.

7. When a case of cholera or suspected cholera occurs in a house, the nearest male relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, some male inmate of the house shall, within twenty-four hours of the onset of the disease, give information regarding the occurrence of such case either personally or in writing or by means of the chaukidar or other village watchman to the nearest Sanitary Inspector.

8. (1) If information has not already been given under regulation 7, the medical practitioner called in to attend upon any case of cholera shall forthwith give notice of the case by special messenger to the nearest Sanitary Inspector and by post to the District Health Officer and the cost of such messenger in each case shall be defrayed by the Board.

(2) The doctor-in-charge of a hospital or a dispensary within the district shall forthwith give notice of any case of cholera brought to such hospital or dispensary for treatment to the nearest Sanitary Inspector by a special messenger and to the District Health Officer by post and the cost of such messenger in each case shall be defrayed by the Board.

9. Presidents of Union Boards in union board areas and thana officers in non-union board areas shall supply to the District Health Officer such periodical returns of cases of cholera as he may from time to time call upon them to furnish.

10. The District Health Officer or a Sanitary Inspector may examine any person who is, or suspected to be, suffering from cholera or who, in his opinion, may be infected with or likely to spread cholera.

24-Parganas.— No. 1777P.H. — 18th May 1937.—In pursuance of rule 8 of the rules for the preparation, publication and execution of projects for water-supply, sewerage or drainage by municipal authorities, it is hereby notified for general information that the scheme for the supply of filtered water to the Garden Reach Municipality has been approved by the Governor of Bengal, and

that the particulars of the said scheme are as follows:—

(*a*) The scheme is designed to give an initial daily supply of 560,000 gallons of filtered and chlorinated water to a population of 56,000 persons. The water, which will be drawn from the Calcutta Corporation mains, will be measured by a venturi meter to be provided by that body, and will be paid for at the rate of 4 annas per 1,000 gallons. If required, the daily supply can be raised to 640,000 gallons by pumping for longer hours.

The distribution of the water will be made on the "decentralised storage" system. In preparing the scheme the possibilities of an independent supply has been kept in view, and the distribution system has been so designed as to be capable of being fed from either source.

The filtered water in the Calcutta Corporation mains will be led by an 18″ diameter pipe to the existing elevated reservoir of 20,000 gallons capacity where it will be chlorinated as an additional measure of safety. It will then be delivered to the town through a 15″ trunk main. Arrangements are provided by means of which it will be possible to maintain a pressure of 80 feet. The scheme provides for 600 house connections in addition to 190 street tanks.

(*b*) The estimated cost of carrying out the scheme is Rs. 3,60,500 excluding cost of land.

(*c*) The estimated cost of maintenance is Rs. 66,600 per annum, on the basis of daily supply of 560,000 gallons in seven hours.

(*d*) Both the capital and the annual maintenance costs will be met from the municipal fund.

(*e*) The total annual charge to be met by water rate is estimated to be Rs. 53,667, and the balance of the maintenance cost will be made up from the general fund.

(*f*) The percentage of water rate on the annual value of holdings is 3½ per cent.

(*g*) The average incidence of such water rate per head of the population will be 15·37 annas.

2. The scheme will be taken into consideration on or after the 15th July 1937, and any objection or suggestion with regard thereto, which may be received by the undersigned before that date, will be duly considered.
